This list is prepared WITHOUT PREJUDICE.

Below is a list of refereed journals derived from a variety of sources. It is accurate as of February, 2024, and where possible, all websites have been verified.

The list includes:

- Active journals and their current websites (about 305 journals)
- Journals that may still be active, but that either do not have current websites, or whose websites have not been updated since 2022 (about 30 journals)
- Inactive or defunct journals, including those with live websites hosting archived materials (about 120 journals)

The list includes those journals that focus exclusively or primarily on tourism, hospitality or events and does not include journals that relate to such fields as leisure, recreation, sports, food science and the like. It also identifies those journals that have appeared on various predatory journal lists. These journals are identified as such without prejudice.
